

AUSTERITY TREATY REFERENDUM: **POVERTY TREATY – VOTE NO!**

A Treaty for jobs? Lie!

They said voting for Lisbon would bring more jobs, but there's 114,000 fewer jobs now. This Treaty would prevent the state investment that's needed for growth.

A Treaty for stability? Lie!

After five cut-and-tax budgets, our debt is bigger and we're less able to pay.

A Treaty for cuts and tax hikes? True!

Bankers get paid and we foot the bill. They want to set this in law forever!

The EU and the government are now debt collectors for the banks. They will use this Austerity Treaty to make us pay for the bank crisis – with cuts in spending, a squeeze on our incomes and more out of work.

Austerity makes us poorer. Spending cuts kill growth and jobs. Health, education and other services are slashed. For young people, it's emigration or the dole.

Austerity hasn't worked in Greece, Italy, Spain and Portugal. They now have millions in poverty and mounting debts that the EU wants paid, whatever the human cost.

People across Europe are demanding change, and so should we! A No vote won't isolate us: another bailout can be got from the existing funds.

Austerity is causing unemployment, poverty and instability

DON'T GIVE THEM PERMISSION TO CAUSE MORE HARDSHIP

vote NO!
